### Youth Exchanges

Within the European 'Youth in Action' Programme, a Youth Exchange is a project where young people work and live together in an international group for a specific time. It consists of preparation, implementation, and follow-up activities. For the duration of the Youth Exchange, young people undertake a joint programme of activities with specific aims and objectives.

Young people from different countries and backgrounds co-operate with each other supported by experienced youth workers and leaders. They develop personal, professional, and intercultural competences.

Youth Exchanges foster the mobility of young people in Europe. They encourage initiative and creativity in young people, facilitate their active participation in the project, and thereby provide an intercultural learning experience.

Offering the added value of a European dimension, Youth Exchanges are quality-checked regarding content criteria and implementation.
